McMASTER IN THE NEWS

Mark Sherry

McMaster alumnus Mark Sherry was listed as one of the Children's Choice Top Ten Awards from the Canadian Toy Testing Council, for his game "Things...Humour in a Box."

His game was the only Canadian product on the Canadian Toy Testing Council's top 10 list this year. It beat out more than 700 international toys and games to earn the award from Canada's authoritative voice on children's toys and games.

While all the other toys in the Top Ten were developed by major toy corporations like Lego & Microsoft, "THINGS" is the product of two brothers from Toronto & a friend from North Bay who were just trying to make each other laugh.

"It's an honour to receive this prestigious award," says Sherry, who received a bachelor of commerce from McMaster in 1988. "We're also very proud to be the only Canadian product on the list. Fact is, it's a funny game. And Canadians have a great sense of humour."
